Voices from JDS scholars

Ms. **Phung Minh Duc**, batch 10th, Hitotsubashi University. She is a lecturer of Foreign Trade University, HCMC Campus.

"If I had another chance, I would still choose Japan for my study. It is the best place I have ever known to live and study. The country is very beautiful and peaceful. The people are extremely helpful and nice. Living and study conditions are very good."

Ms. Nong Thi Hue, JDS batch 11, Kyushu University. She is at her second year in Japan.

"Japan really give us a lot of valuable things to take home: knowledge, behaviour, discipline and sweet unforgettable memories. I believe that you will enjoy immersing yourself in study and life here like me. Come and discover! Now or never!!!"

Mr. Hoang Thanh Tung, batch 10th, University of Tsukuba, a staff from Vietnam Academy of Agricultural Sciences.

"Actively studying and taking advantage of advanced library system in the university should be smart strategy to get master degree, also please don't miss golden opportunities to comprehend Japanese people, cultural dignity and their spirit, another degree is worth achieving, and finally don't waste any single precious moment during the time studying in Japan."

Ms. Tran Kim Anh, batch 10th, Nagoya University. She is working for Supreme People's Court.

"Studying and living in Japan are the great experiences in my life. Two-year course is enough for international students to complete Master's theses by our own efforts and professors' great supports. But it seems never long enough to profoundly understand the beauty of Japanese culture, nature and people. Japan is always full of wonderful things waiting for you to find out. Study hard and don't forget to enjoy your time in Japan."
